# **READY BOOSTER** THE NEW SINGLE POINT LUBRICATOR FROM NTN-SNR

# READY BOOSTER **Benefits**

- Significant savings due to the flexibility of use (1-12 months and stoppable)
- Suitable for tight and restricted areas (125 cm<sup>3</sup>)
- Ready to use: no assembly and no tools
- Only one lubricator for all of your applications: required inside and outside (-20°C up to 60°C)
- IP68 protection class: Reliable lubrication
- even in extremely moist and dusty areas

# **Applications**

### Due to its compact size, the Ready Booster can be used in various applications:

- Bearings, Plummer block
- Chains
- Electrical motors, fans, pumps, conveyors, etc.

With You

> FOR YOUR APPLICATION, SELECT THE MOST SUITABLE GREASE FOR YOUR AUTOMATIC LUBRICATOR

	UNIVERSAL +	HEAVY DUTY +	VIB	HIGH TEMP	CHAIN OIL	FOOD AL
DESCRIPTION						
	General purpose grease for industrial use	Suitable for very high loads, compatible with many applications, intended for arduous applications	Parts subject to extensive vibration or impacts. For high-load applications in humid environments	This grease is ideal for long-term lubrication at high temperatures up to 150°C, Accepts peaks of +175°C	Synthetic oil for high temperature chains	Multi-purpose grease for the food and pharmaceutical industries. Complies with NSF-H1 recommendations
APPLICATIONS						
	Agricultural equipment, handling equipment, general mechanical devices, low-power electric motors, etc.	Heavy industry: metallurgy, construction, transport, conveyors, lifting devices, water pumps, etc.	Quarries, cement plants, public works and humid environments: paper works, boring, crushers, vibrating scalpers, etc.	Textile machines, paper transformation machines, hot fans, dryers, water, pumps, etc.	Textile and plastic injection machines: For all type of oil lubricated chains	Bottling machines, dairy equipment, industrial baking, pasta manufacturing, confectionery, slaughterhouses, etc.

## **Technical information**

- · Gas generating unit
- Reliable and economical
- Transparent cartridge
- Immediate activation (less than 1 day)

IP68 protection

Max. pressure 5 bars

Discharge period from 1 to 12 months Stoppable

Capacity of 125 cm<sup>3</sup>

Operating temperatures: from -20°C up to +60°C Several accessories available

Rotary switch for discharge period setting
